

ENVIRONMENTAL SCIENCES

Our Experts Can Help You Justify Your Project to Environmental Regulators.

Scott Resource Services (SRS), a wholly-owned subsidiary of Pinchin West Ltd., is an award-winning environmental sciences firm with over 30 years of experience providing high-quality, cost-effective and value-added environmental consulting expertise in support of **fisheries, wildlife and vegetation management**.

SRS provides expert advice on all environmental aspects **pertaining to infrastructure planning, design, development and construction**. We assist our Clients by identifying environmental impacts at the preliminary design phase and recommending strategies to avoid / mitigate these impacts.

In concert with Pinchin West Ltd., the combined firms provide multi-disciplinary professional services to support all stages of development, infrastructure and resource projects.

Collectively, our creative, practical and Client-specific solutions allow projects to move cost effectively and efficiently through environmental and construction stages, resulting in **timely project approvals** for our Clients.

Trust our experts with all Environmental Sciences needs.

Fisheries & Aquatic Services

- Fish species inventories
- Benthic invertebrate sampling
- Aquatic habitat & riparian vegetation inventories
- Detailed Riparian Areas Regulation (RAR) surveys
- Water quality testing & monitoring
- Watercourse approvals under the *Water Sustainability Act* & *Fisheries Act*
- Culvert / bridge replacement / installation approvals
- Sediment quality studies
- In-stream & emergency works approvals

Wildlife & Vegetation Services

- Wildlife & vegetation impact assessments
- Identification of federally and provincially listed 'Species at Risk'
- Habitat enhancement, restoration & protection
- Wildlife migration impact mitigation
- Raptor / heron & breeding / nesting avian surveys
- Small mammal trapping & amphibian surveys
- Identified Wildlife Strategy risk assessments

Environmental Assessments

- Environmental assessments (EA)
- Environmental Impact Assessments (EIA)
- Environmental Management Services (EMS)
- Preparation of aquatic & terrestrial baseline reports
- Environmental Management Plans (EMP)
- Environmental Protection Plans (EPP)
- Erosion and Sediment Control Plans (ESCP)
- Regulator, Public & First Nations consultation

Development & Construction Support Services

- Permit Authorizations & Approvals
 - Project coordination & management
 - Regulatory Liason
 - Public & First Nations Consultation
